“ I remember growing up thinking about Aunt Ann quite often. She was a very straight to the point lady. Could always find the humor in any situation , and she was just awesome to be around. You don't really think about these things and we take alot for granted. I will miss you and your laughter. ...until we meet again. I love you and I know you're happy to be with our other loved ones. Condolences to our whole family. This is a difficult time I know, but when you start to feel sad and low just think of Ann and her humor. And whatever smart a## comment she would say. Love and prayers. Xoxox.
