

Harry L. Masten III

May 16, 1927 - December 1, 2020

Harry L. Masten III, age 93 of Pennsville NJ, went home to be with the Lord on December 1, 2020.

Harry, or Layton as family members called him, was predeceased by his parents Harry and Dorothy (Jones) and wife Mary A. (Damask). He is survived by his children Harry L. Masten IV, Cynthia Hay and Richard Masten (Sandy), along with two grandsons, Robert (Taylor) and Stephen (Ashley) Hay.

Harry was an Electrical Engineering graduate from the University of Delaware, before retiring at the age of 69 he worked for the Army Corp of Engineers and prior to that Princeton University. During his lunches he would often play basketball where he developed a “hook shot” that was fairly good for a short guy. He would tell long stories that only ended when his wife said “shut the up Layton”. He wouldn’t hesitate to tell you how smart of an Engineer he was and how Electrical Engineering was the toughest engineering field there was. His competitive spirit, orneriness and dry sense of humor will be missed.

Services will be held at a later date.

Tribute Wall

LS

“ I will never forget the many years spent with your parents or Mr and Mrs Clause as I referred to them. I can remember only funny things that's who they were to me they made me laugh. Like when I introduced them to the mr hankey show or the video tapes I still have of them especially your mom telling me never let a man in my door. Their 50th anniversary party with alcohol and the newspaper was there. I had so much fun. I will miss Layton but he is with his wife now.can you imagine your Mom, Dad, my Mom,,Dad, Sandy, and baby Richie all up there together. What I wouldn't give to be a angel on the wall. 💕💕 I hope that it will give you some peace to know that while he was here you were a wonderful son and made sure he always had the best. Now that he has moved on be comforted in knowing he is with your family holding your son and immersed in God's blessings and love.
